Establishment of a Statistics Bureau.

22. MR. JACOB HASSAN SAIT (*Commerce and Industry, North*) : Will the Government be pleased to state whether they have established any separate Statistics Bureau for collecting information about the prevailing market rates of the various articles of agricultural produce in the State, and, if so, where their offices are situated, and what expenses are incurred by them annually for the maintenance of the staff thereof ?

RAO SAHIB DR. N. KUNJAN PILLAI : A separate Statistical Bureau has not been established. The formation of a Bureau was suggested by the Banking Enquiry Committee and the matter is under correspondence.

MOTION FOR ADJOURNMENT.

PRESIDENT : Mr. Balakrishnan Tampi has given notice of an adjournment motion

"for the purpose of discussing the serious menace to public health in the State on account of the outbreak of typhoid in Trivandrum and smallpox in Karunagapalli on an unprecedented scale and the urgent necessity of taking adequate measures to effectively combat the same."

This motion cannot be admitted for two reasons. One is that two separate issues are raised, typhoid in Trivandrum and smallpox in Karunagapalli. The second is the more important reason, *i. e.* the motion does not refer to a specific event, but refers to what I might call a continued event. But I can assure the member that he can be confident that the Public Health Department will effect vely deal with these matters.

The Council will now proceed with the discussion of Mr. Statham's motion.
